Attn: Mayor and Council

Re: Public Health Modernization

As you know, in the Ontario budget released on April 11, 2019, the government made significant policy changes for public health across the province. In the budget, the government is proposing a reduction from the current 35 provincial public health units to 10 regional public health entities. It has been announced that the government intends to change the municipal-provincial cost sharing for public health. The government expects to reduce its investment in public health by \$200M within two years based on these changes.

While there has been some communication from the Ministry of Health and Long-term Care, information since the budget announcement has been piecemeal and unpredictable, lacking many details. This limits our ability to fully understand the implications of these changes for the Thunder Bay District Health Unit (TBDHU) and for the municipalities in TBDHU.

At its May 15th meeting, the Board of Health was briefed on the situation. Preliminary indications on the impact for municipalities as a result of the provincial changes were brought forward at that time.

At the local, regional and provincial levels, we continue to actively work on obtaining additional information from the government on these changes. Our plan is to bring the Board of Health more concrete information along with recommendations on how to proceed at the June 19th meeting. We would anticipate providing further communication with municipalities after that time.

If you have any questions, please contact Mr. Lance Dyll, Director of Corporate Services at 807-625-5961 or by email: lance.dyll@tbdhu.com.

Sincerely,

Janet DeMille, MD, MPH, CCFP, FRCPC
