

Announcement: Wednesday, August 14, 2019

Great news for Manitowadge. Northern Broadband Wireless Ltd (NBW) has signed a broadband agreement with Telacor, a re-seller of Bell Canada broadband connectivity. Telacor has committed to providing connectivity by Oct 31, 2019. This agreement brings Broadband Wireline service direct to Manitowadge via the Fibre that we worked so hard on to bring into town.

Bringing broadband fibre speeds into Manitowadge releases numerous benefits to the Town. Key beneficiaries include the schools, the hospital and several other local companies. We look forward to transforming current telecom infrastructure in Manitowadge into the 21st century with hi-speed that will attract the businesses of the future.

NBW plans on completing the wireless infrastructure in advance of the fibre connection, to ensure immediate delivery to residents and businesses within your community. We at NBW would like to thank all for their patience as we worked through the various difficulties in obtaining this connection agreement, one that will fit the requirements of the community now and in the future.

NBW is grateful for the continued support and commitment of the Township of Manitowadge. The assistance offered by the Township of Manitowadge throughout the build and broadband connectivity issues is truly admirable.

Best Regards,

Ray Abrams
Northern Broadband Wireless Ltd
